

HOW TO INSTALL PARENTAL CONTROLS IN MICROSOFT INTERNET EXPLORER

1. Open Internet Explorer.
2. Select **Tools** from your menu bar.
3. Select **Internet Options** from the drop down menu.
4. Choose the **Content** Tab.
5. Under the section '**Content Advisor**', click **Enable**.
6. Choose the **Ratings** Tab.
7. Click on each selection and move the slide bar to the appropriate level. CAHEC suggests using the highest level. Most education/employment-related content can be accessed at this setting.
8. Next choose the **General** tab.
9. Under the section '**Supervisor Password**', click **Create Password**.
10. Type the password that you will be using in the box. Retype the password to confirm it. Be sure to put a copy of the password in your TLC files.
Password: _____
11. Click **Apply**, then **OK**.
