Hurricane Preparation

We are encouraging each and every resident of United Management II to be prepared for the upcoming hurricane that is scheduled to hit this week. We are asking each resident to prepare their unit by removing clothing, shoes, toys, knick-knacks, papers, books, electronics, etc. from the floors in order to prevent possible damage, should we have any flooding. Please make sure to check your storage and/or utility rooms for any items that could possibly be damaged and remove them or store them in plastic totes.

We are asking that each resident take this storm seriously and be prepared!!! This is a reminder that United Management II is not responsible for loss to your personal belongings. We will respond to emergencies accordingly. Please take any and all precautions and tune into the news channel for further updates of the storm. We at United Management II hope that each and every resident stay safe during this time.

Thank you,

United Management II Staff
